

Weill Cornell Medicine

Department of Urology

Presents The

Forty-Second Annual Victor F. Marshall

Visiting Professorship

Eila Skinner, M.D.

Stanford University

**Thomas A. Stamey Research Professor of Urology
Chair, Department of Urology**

October 27, 2023

Weill Cornell Medicine

413 East 69th Street, 2nd Floor, Belfer Building
Conference Room 204 – A, B, C

Forty-Second Annual Victor F. Marshall Visiting Professorship

STATEMENT OF NEED

According to the American Cancer Society, bladder cancer is the fourth most common cancer in men, and accounts for close to 12,000 and 4,500 deaths per year in male and female patients, respectively. Approximately 25% of bladder cancers are muscle invasive at diagnosis. For these cancers, and other high grade recurrent bladder cancers, radical cystectomy with some form of urinary diversion/reservoir is a commonly recommended treatment. There are multiple options on how to reconstruct a urinary reservoir after a cystectomy, each with unique risks and complications. Urologists and urologic Advanced Practice Providers (APP)s are the healthcare providers directing care for patients with bladder cancer. Therefore, it is imperative that urologic practitioners remain up to date on the pathophysiology, potential complications, and treatment considerations associated with various urinary diversion techniques. This educational event will provide participants with an advanced and comprehensive review of urinary diversion options in the treatment of bladder cancer.

TARGET AUDIENCE

Past and present faculty and residents of the Weill Cornell Medicine Department of Urology, as well as urologists practicing in the New York Metropolitan area.

COURSE GOALS & OBJECTIVES

At the conclusion of this program, all participants should be able to:

- Gain enhanced knowledge of indications and outcomes for continent neobladder reconstruction.
- Recognize the difficulties of managing complications after continent urinary diversion.
- Be cognizant of the factors that can contribute to a successful career in academic urology.

Weill Cornell Medicine gratefully acknowledges funding provided in part by:

*The Frederick J. and Theresa Dow Wallace Fund
New York Community Trust*

Program for the

Forty-Second Annual Victor F. Marshall Visiting Professorship

Note: All lectures and presentations will be held at Weill Cornell Medicine
413 East 69th Street, 2nd Floor, Belfer Building Conference Room 204 – A, B, C

Thursday, October 26, 2023

Resident Dinner with Dr. Skinner

Friday, October 27, 2023

9:00 – 11:00

Case Presentations/Discussions by Residents:

Aaron Brant, MD, Jeffrey Johnson, MD, Christina Sze, MD

Comments by Dr. Skinner

11:00 - 11:15

Coffee Break

11:15 - 12:15

Lecture – Dr. Skinner

Update on continent urinary diversion: “How to get the best results and manage complications”

12:30 - 1:45

Faculty/Residents/Fellows Luncheon
with Dr. Skinner (Griffis Faculty Club)

State of the Department:

Larissa V. Rodriguez, MD, Chair

❖ Faculty Research Updates

2:00 - 3:00

Case Presentations/Discussions by Residents:

Ashwin Ramaswamy, MD, Samantha Thorogood, MD, Tenny Zhang, MD, Alec Zhu, MD

Comments by Dr. Skinner

3:00 - 3:15

Coffee Break

3:15 - 4:15

Lecture – Dr. Skinner

“Navigating challenges in an academic urology career – setting yourself up for success”

4:15 - 5:30

Resident Research Review

Adithya Balasubramanian, MD, Leo Dreyfuss, MD, Lina Posada Calderon, MD, Oakley Strasser, MD

Evening

Faculty Dinner with Dr. Skinner

Eila Skinner, MD

Stanford University

Thomas A. Stamey Research Professor of Urology

Chair, Department of Urology

Dr. Eila Skinner is the Thomas A. Stamey Research Professor of Urology and Chair of the Department of Urology at Stanford University. She obtained her undergraduate degree from Stanford University, and her medical training from Keck USC School of Medicine. She completed a residency in Urology at LAC+USC Medical Center, and a fellowship in Urologic Oncology at the Norris Cancer Center at USC with Dr. Donald Skinner. Dr. Skinner was on the faculty in the Department of Urology at the Keck USC School of Medicine from 1990 through 2012, where she served as Residency Program Director for over 10 years. Dr. Skinner was also the Urologic Oncology Fellowship Director, Vice Chair and Hospital Chief of Staff for 3 years. She was recruited to Stanford University to become Chair of the Department of Urology in 2012.

Dr. Skinner served as Trustee and President of the American Board of Urology and is a member of several national organizations, including the Society of Urologic Oncology, Society of Academic Urologists, American Association of Genitourinary Surgeons, Clinical Society of Genitourinary Surgeons, Society of Women in Urology, and Society of Pelvic Surgeons. She has served on numerous committees at the American Urology Association, including the Exam Committee, Science and Quality Council, Core Curriculum Committee, Publications Committee, Program Committee, and the Guideline Committees on non-muscle invasive bladder cancer.

Dr. Skinner's primary clinical and research focus has been in the surgical treatment of locally advanced bladder cancer, bladder reconstruction and continent urinary diversion. She has active ongoing clinical trials in the treatment of bladder cancer and other urologic malignancies.

FACULTY DISCLOSURE

It is the policy of Weill Cornell Medicine to adhere to ACCME Criteria, Policies, and Standards for Commercial Support and content validation in order to ensure fair balance, independence, objectivity, and scientific rigor in all its sponsored activities. All speakers, Course Directors, Co-Course Directors, planners, reviewers, and staff members participating in sponsored activities are expected to disclose relevant financial relationships pertaining to their contribution to the activity. Relationship information is analyzed to determine whether conflicts of interest exist. All conflicts of interest are resolved prior to participation in the planning or implementation of this activity. Presenters and authors are also expected to disclose any discussion of (1) off-label or investigational uses of FDA approved commercial products or devices or (2) products or devices not yet approved in the United States.

ACCREDITATION

Weill Cornell Medical College is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Weill Cornell Medical College designates this live activity for a maximum of 6.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Notes

Larissa V. Rodriguez, MD – Course Director

Jim Hu, MD & David Green, MD - Co-Course Directors

Refreshments will be available for each morning session and an afternoon snack.

*Generously supported by the Faculty, Alumni and
The Frederick J. and Theresa
Dow Wallace Fund

VICTOR F. MARSHALL VISITING PROFESSORSHIP

The visiting professorship was established by Weill Cornell Medicine – The New York Presbyterian Hospital, Department of Urology, to honor our distinguished colleague and leader, Dr. Victor F. Marshall.

Dr. Victor Marshall came to The New York Hospital – Weill Cornell Medicine from Culpepper, Virginia, by way of Washington and Lee University and the University of Virginia Medical School. Dr. Marshall completed his surgical and urologic training at The New York Hospital, and in 1946 joined its urologic staff. In 1948, Dr. Marshall became Surgeon-in-Chief of (Urology) at The New York Hospital, a position he held until 1976. He developed the residency into one of the truly outstanding urologic training programs in the world. Many of its graduates have been national and international leaders in urology and rendered superb urologic care to their communities.

Dr. Marshall was a prolific author with more than two hundred publications to his credit. He was an active member of many urologic societies and served as the president of the American Board of Urology. He received the Ramon Guiteras Medal of the American Urologic Association, the Barringer Medal of the American Association of Genito-Urinary Surgeons, and the Valentine Award of the New York Academy of Medicine.

We honor Dr. Marshall by joining together our distinguished visiting professor, the past and current faculty, and residents of the Department of Urology, to demonstrate and discuss surgical advances and diagnostic techniques in a collegial atmosphere.
